11 August 1958

MEMORANDUM FOR: Executive Secretary  
CIA Career Council

SUBJECT: Coordination [REDACTED]

25X1A

1. The DD/I concurs in the proposed [REDACTED]  
"The Career Staff of the Central Intelligence Agency".

25X1A

2. We would like to pass on two thoughts for your consideration  
that arose during the review of this regulation by our offices:

a. That para. 4 h. be broadened in its concept to  
cover more than simply "preferential consideration" for  
women who are former career staff members and have had to  
resign in order to accompany their CIA spouses overseas.  
It is believed it would bolster career service member-  
ship were policy to state the Agency would make every  
effort to reemploy any Career Staff member who has had to  
resign for reasons beyond his or her control whether for  
health, assignment or whatever.

b. Might it not add some additional prestige to  
membership were the system to call for an individual's  
invitation into the Career Service rather than notifying  
him that he may apply for consideration. In other words,  
the Agency would notify an individual's career service  
that he is eligible for membership and the career service  
would then pass on his qualifications and notify the Selection  
Staff of its findings. The Selection Staff, after the present  
qualifications review procedures, would then invite the  
individual to Career Staff membership.
